EDUCATION

Vocational School

Zespół szkół elektronicznych i telekomunikacyjnych w Olsztynie
2019-2024

Programming Technician

CERTIFICATES

- INF.04 - Designing, Programming, and Testing
- INF.03 - Creating and administering web apps

SKILLS

- React, React Native, NextJS
 - NodeJS, NestJS, Express,
 - JavaScript, TypeScript
 - Expo, MySQL, GraphQL, REST
-
- English (B2)
 - Polish (Native)

ABOUT ME

I'm a programming enthusiast, 20 years old, 5 years of learning programming, eager to learn and work. I thrive on challenges and am passionate about leveraging technology to create innovative solutions.

WORK EXPERIENCE

Wirtualna Polska

INTERNSHIP

December 2022 - January 2023 (1 Month)

- Learning about Linux and it's enviroment
- Setting multiple VM's and configuring setup

Artneo

INTERNSHIP

Febuary 2022 - March 2022 (1 Month)

- Building a Marketplace application with a team in NextJS and NestJS

PROJECTS

Mobile Shopping app

REACT NATIVE, STRIPE , NESTJS TYPEORM + MYSQL

This project, utilizing React Native and NestJS, integrates Stripe for purchases, and includes a cart, watchlist, and purchase history. With robust user authentication, it ensures security. Its modern, dark-themed design enhances user experience, offering a seamless and stylish interface.

MyLife app

REACT NATIVE, NESTJS, TYPEORM, GRAPHQL MYSQL

This mobile app project combines React Native with a NestJS backend utilizing GraphQL, linked to a MySQL database. Offering diverse functionalities, it includes a calendar reminder for tasks with push notifications, a secure notes page, a wallet feature to manage expenses, and a workout screen for creating and tracking fitness progress. With seamless integration and robust features, it provides users with a comprehensive and dynamic mobile experience.

PROJECTS

Marketplace Fullstack application

NEXTJS NESTJS REST MYSQL TYPEORM STRIPE TAILWINDCSS

This web application, developed using NEXT.js for the frontend and NestJS for the backend, incorporates TypeORM and REST API to efficiently interact with a MySQL database. Integrated with Stripe for secure payment processing, it facilitates smooth offer creation, sale, and management. Its responsive design and contemporary aesthetics ensure a user-friendly experience across various devices. With reliable user authentication, intuitive offer management features, and advanced search and filtering capabilities, this platform offers a comprehensive solution for seamless e-commerce interactions.

Recruiting company website

NEXTJS TAILWINDCSS FORMIK YUP NEXT-INTL NINOX CLOUD API

This project, developed with Next.js, Tailwind CSS, and Formik, incorporates multiple forms to enhance user interaction. Utilizing Next Intl for language translations in ten different languages, it ensures inclusivity and accessibility for a diverse audience. Leveraging the Ninox Cloud API as the backend service, the website caters to a German recruiting company with operations across various fields. The platform seamlessly integrates modern frontend technologies with robust backend solutions to deliver a user-centric experience tailored to the needs of a dynamic recruiting environment.
